DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 3, 4, 10 and 17-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, line 3, the phrase “a first sealing segment” raises double inclusion issues since the same limitation has already been positively recited in claim 1.

In claim 3, line 4, the phrase “a first holding segment” raises double inclusion issues since the same limitation has already been positively recited in claim 1.

Regarding claims 4, 10 and 17-19, the phrase "in particular" renders the claims indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3752

4. Claims 1-9, and 11-20 are rejected under 35 U.S.C. 102(b) as being anticipated by De Brock.

De Brock discloses a roller receiving device and packing system comprising a roller 14; container "C"; a roller receiving device comprising a first part 13 forming a first sealing segment 17a/17 for the sealing the roller receiving device relative to the container jacket wall; a second part 15 forming a first holding segment for forming a locking connection between the roller receiving device and the container. See Figures 1-3.

Allowable Subject Matter

5. Claim 10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Thompson et al and Thomas disclose various types of roller receiving devices.
